

CHARTICULUM(Chart Your Curriculum)

'The Visual Academic Planner'

charticulum.com

Ensuring consistency throughout academic institutions while enabling students to visualize their academic future.

FOUNDATIONS

- a. **Objects**('courses,' 'classes,' etc..) with **attributes**(o_a system).
- b. o_a system:
 - Object's **units**, **dependents**(pre. reqs., concurrents) **equivalents**(mutually exclusive), **availability**, **category** **satisfier**(gen. ed., department).
- c. **charts**(flowcharts) with **required Objects** and **satisfactions** by **scope**(r_o_s_s system).
- d. r_o_s_s system:
 - global Objects** and **satisfactions** are **required** in every **chart**,
 - local Objects** and **satisfactions** are **required** and vary within **charts**.
- e. **version control**(v_c system):
 - charts**:
 - branches** for concentrations/focus or different providers,
 - r_o_s_s enforcement from **masters** to **forks**,
 - r_o_s_s **merging** from **masters** when **forking**(for combining **charts**).
 - user management system**:
 - ..loading
- f. **Institution integration**:
 - web embeddability,
 - cross institution **Object** transferability in **chart** r_o_s_s via **equivalency**.

FUNCTIONS

- a. **chart_builder** with o_a and r_o_s_s enforcement.
- b. **chart_visualizer**(interactive) to visualize **charts**(based on **chart_builder**),
 - together = **chart_engine**.
- c. **chart_styles** within the **chart_renderer** for consistent styling within institutions.
- d. **chart_ai**(customizable chatbot) with o_a, r_o_s_s, v_c, and **chart_engine** integration to:
 - compare **Objects** and **charts**,
 - fetch academic information,
 - generate **charts**.
